

 **WARNING!**

Whenever you ride your vehicle you risk injury or death from loss of control, collisions, and falls. Be sure to read the User Manual and watch the Safety Video before riding.

The manufacturer reserves the right to make changes to the vehicle, release firmware updates, and update this manual at any time. Visit [www.segway.com](http://www.segway.com) to download the latest user materials. You must install the App to follow the New Rider Tutorial, activate your vehicle, and obtain the latest updates and safety instructions.

**ninebot<sup>®</sup> KickScooter**

## QUICK START

[Scan to download the App](#)

Alternatively, go to the Google Play Store (Android) or the Apple App Store (iOS) and search for "Segway" or "Ninebot" to download and install the App. Be advised there is a minimum Android/iOS/Bluetooth version required. See User Manual for additional details.

## First Ride

▲ There are safety risks when learning to ride the KickScooter. You must read the Safety Instructions via the App before your first ride.

For your safety, your new KickScooter is not activated and will beep occasionally after Power ON.

Until activated, the KickScooter maintains a very low riding speed, and can not be ridden with full function. Install the App on your mobile device (with Bluetooth 4.0 or above), connect to the KickScooter with Bluetooth, and follow the App instructions to activate your KickScooter and enjoy the full performance.

Scan the QR code to download the App (iOS 8.0 or above, Android™ 4.3 or above).

1 Install the App and register/login.

3 Click "Vehicle" → "Search device" to connect to your KickScooter.  
The KickScooter will beep when the connection is successful. The Bluetooth icon will stop blinking and remain illuminated.

4 Follow the App instructions to activate the KickScooter and learn how to ride safely.  
You can now start to use your KickScooter, check the status with App, and interact with other users. Have fun!

2 Power on the KickScooter. A blinking Bluetooth icon indicates the KickScooter is waiting for a connection.

## Learning to Ride

Wear an approved helmet and other protective gear to minimize any possible injury.

1. Power on the scooter and check the indicator lamp power level. Charge the scooter if the battery level is low.

2. Stand on the footrest with one foot and push off with your foot to start gliding.

3. Put your other foot on the footrest to keep both feet stable. Press the throttle on right hand to speed up when you are balanced.

**Note, For your safety, the motor will not engage until the scooter reaches 1.8 mph (3 km/h).**

4. Slow down by releasing the throttle; stir the brake handle thumb shifter quickly and stamp the fender with foot at the same time to trigger mechanical braking in order to make a sharp brake.

5. To turn, shift your body weight and turn the handle slightly.

### ▲ WARNING

When braking rapidly you risk serious injury due to loss of traction and falls. Maintain a moderate speed and look out for potential hazards.
