KEY FEATURES

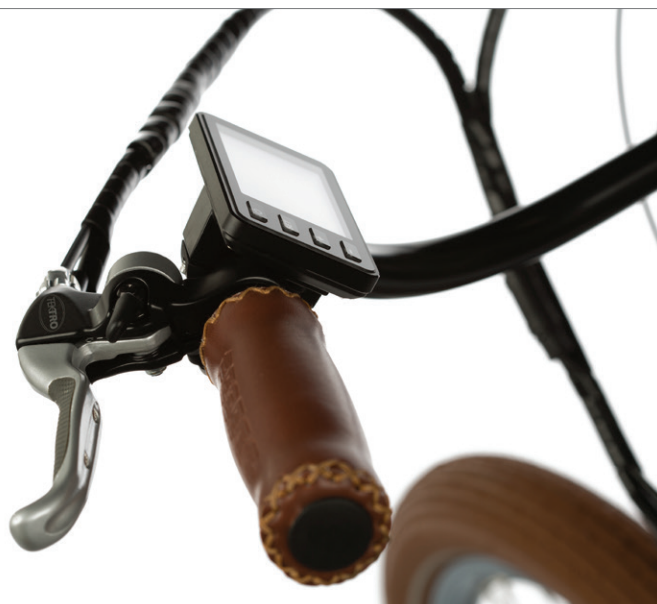

MADE FOR YOU

The first thing you notice when you ride an Interceptor is how comfortable you feel. You'll swear it was made just for you – because it was! The most important part of any Pedego is the person riding it, and the Interceptor is built with only one thing in mind: YOU.

USER-FRIENDLY

The Interceptor is fully loaded with user-friendly features that make riding even more fun. From the simple pleasure of a built-in bell, to innovative Smart Bike Technology including a bluetooth connected smartphone app; we've thought of everything!

BREATHTAKING PERFORMANCE

- A whisper quiet, 500 watt motor delivers best in class acceleration and hill climbing. The sensation of power it gives you is exhilarating.
- A state-of-the-art 48 Volt battery uses the same advanced lithium-ion cells as an electric car. It weighs less than a housecat and can take you up to 60 miles on about 10 cents worth of electricity.

ELECTRIC BIKES

SMALL DETAILS MAKE A BIG DIFFERENCE

1. Stop On A Dime

Powerful disc brakes can stop on a dime.

4. Relaxed Handlebars

Wide, swept back handlebars allow you to sit back and relax.

2. Comfy seat

Soft saddle with a suspension seatpost for extra cushioning where it counts.

5. Bright Lights

Built-in front and rear lights for your safety and convenience.

3. PedalSense®

Twist-and-go throttle, 5 levels of pedal assist, and LCD display with USB charger.

6. Balloon Tires

Kevlar-belted tires help prevent flats and give you a nice, smooth ride.
